### **BRANGUS® ASSOCIATION ACCEPTING VOLUNTEERS**

**San Antonio** – The International Brangus® Breeders Association (IBBA) is now accepting committee member applications for positions on seven committees.

IBBA members are encouraged to volunteer for the association through service to one or more of the following committees: Breed Improvement Committee, Commercial Marketing Committee, Finance Committee, International Committee, Member Service and Education Committee, Promotion Committee, and Show Committee.

IBBA committees meet multiple times throughout the year. Meetings are conducted in person and via conference call. IBBA does not provide reimbursement for meals or other travel expenses incurred by committee members for meeting commitments.

It is preferred that only those persons willing to take the committee membership seriously volunteer. Meeting attendance would be expected to take high priority if selected to such position.

To be considered for appointment to one or more of the committees listed for 2018-2019, members should complete, sign and return the IBBA Committee Member Application to IBBA's office by April 1. The IBBA Board of Directors makes official committee appointments upon committee member application submission.

The official application is available online at [gobrangus.com/march-18-news-commapps](http://gobrangus.com/march-18-news-commapps). Applications may be mailed to P.O. Box 809, Adkins, TX 78101, emailed to [info@gobrangus.com](mailto:info@gobrangus.com), or faxed to 210-696-8718.

The International Brangus Breeders Association (IBBA), headquartered in San Antonio, Texas, strives to provide the commercial cattle industry, domestically and internationally, with the best genetics possible. Founded in 1949 as the American Brangus Breeders, the organization has since evolved into the IBBA. The IBBA's purpose is to enable its members to produce quality beef for the commercial cattle industry and its consumers. For more information about IBBA, visit [gobrangus.com](http://gobrangus.com).
