V. New Business

- a. 2021 IBBA National Show, Alternative planning
 - i. The management of HLSR suggested that we plan for an alternative location. It was discussed that we hold our national along with other associations. The ABBA would be the preferred breed. Goode and Edwards will contact the ABBA.
- b. Discussion on age verification, Mark Perry opened a discussion of the need to age verify cattle being exhibited. The program that the ABBA has adopted of weights and hip height ranges was presented and referred to as an approach, with the recognition that it would need to be adjusted for Brangus. It was asked if mouthing or teething could be a method of age verification. Guest Dr. Michael Allen stated that this is not a valid check until animals are about two years of age. Much discussion followed about the need to age verify or not, as well as the pros and cons.

Motion: To adopt a program of weighing and measure cattle being exhibited and form a committee to establish the scale of acceptable ranges.

Moved by Mark Perry
